Maria Navarro, UGA
General Discussion

• Session I: Challenges for agriculture in the 21st century

• Session II: Are current agricultural educational models suitable to meet global challenges?

This discussion will support the development of Agricultural Core Curricula for BS + MSc + PhD cycles.
1. How should agricultural higher education adapt to the key challenges of agriculture in the 21st century?

2. What are agricultural higher education programs not doing well to meet these challenges?

3. What are some characteristics of programs that are being successful in addressing these challenges?
